List of Contents for Vol. 16 (2006)

NUMBER 1

Pathophysiology of upper extremity muscle disorders
B. Visser and J.H. van Dieën 1

Non-invasive characterization of single motor unit electromyographic and mechanomyographic activities in the biceps brachii muscle
C. Cescon, E. Sguazzi, R. Merletti and D. Farina 17

Evidence of self-sustained motoneuron firing in young and older adults
G. Kamen, R. Sullivan, S. Rubinstein and A. Christie 25

Ballistic muscle mechanisms determined using an EMG-driven model
N. Wrbaškić and J.J. Dowling 32

Influences of experimental factors on spinal stretch reflex latency and amplitude in the human *triceps surae*
J.T. Blackburn, R.G. Mynark, D.A. Padua and K.M. Guskiewicz 42

Active trunk stiffness increases with co-contraction
P.J. Lee, E.L. Rogers and K.P. Granata 51

Electrophysiologic identification and evaluation of stylohyoid and posterior digastricus muscle complex
T. Kurt, N. Gürgör, Y. Seçil, N. Yıldız and C. Ertekin 58

Arm abduction strength and its relationship to shoulder geometry
K. Gielo-Perczak, S. Matz and K.-N. An 66

Method for determining the spatial position of the shoulder with ultrasound-based motion analyzer
Á. Illyés and R.M. Kiss 79

EMG and MMG of agonist and antagonist muscles as a function of age and joint angle
A. Jaskólska, K. Kisiel-Sajewicz, W. Brzenczek-Owczarzak, G.H. Yue and A. Jaskólski 89

Long-term repeatability of force, endurance time and muscle activity during isometric contractions
C. Røe, Ó.A. Steingrímsdóttir, S. Knardahl, E.S. Bakke and N.K. Vøllestad 103

Announcement
A. Rainoldi 114

NUMBER 2

Myofascial trigger point development from visual and postural stressors during computer work
D. Treaster, W.S. Marras, D. Burr, J.E. Sheedy and D. Hart 115

Precision of measurements of physical workload during standardised manual handling. Part II: Inclinometry of head, upper back, neck and upper arms
G.-Å. Hansson, I. Arvidsson, K. Ohlsson, C. Nordander, S.E. Mathiassen, S. Skerfving and I. Balogh 125

EMG modulation in anticipation of a possible trip during walking in young and older adults
M. Pijnappels, M.F. Bobbert and J.H. van Dieën 137

Innervation zone shift with changes in joint angle in the brachial biceps
S. Martin and D. MacIsaac 144

Mechanomyographic and electromyographic responses to repeated concentric muscle actions of the quadriceps femoris
K.T. Ebersole, K.M. O'Connor and A.P. Wier 149

Reproducibility of eight lower limb muscles activity level in the course of an incremental pedaling exercise
D. Laplaud, F. Hug and L. Grélot 158

Functional and EMG responses to a physical therapy treatment in patellofemoral syndrome patients
I. de C.N. Sacco, G.K. Konno, G.B. Rojas, A.C. Arnone, A. de Campos Pássaro, A.P. Marques and C.M.N. Cabral 167

Elimination of electrocardiogram contamination from electromyogram signals: An evaluation of currently used removal techniques
J.D.M. Drake and J.P. Callaghan 175

Estimation of the interplay between groups of fast and slow muscle fibers of the tibialis anterior and gastrocnemius muscle while running
V. Von Tscharner and B. Goepfert 188

EMG sensor location: Does it influence the ability to detect differences in muscle contraction conditions?
J.A. Mercer, N. Bezodis, D. DeLion, T. Zachry and M.D. Rubley 198

The logical choice of muscles for the needle-EMG evaluation of lumbosacral radiculopathy
I. Yaar 205

NUMBER 3

Stimulation at the cervicomedullary junction in human subjects
J.L. Taylor 215

Effects of shoulder muscle fatigue caused by repetitive overhead activities on scapulothoracic and glenohumeral kinematics
D.D. Ebaugh, P.W. McClure and A.R. Karduna 224

Kinematic and EMG characteristics of simple shoulder movements with proprioception and visual feedback
T.J. Brindle, A.J. Nitz, T.L. Uhl, E. Kifer and R. Shapiro 236

Biomechanical characteristics of adults walking in shallow water and on land
A.M.F. Barela, S.F. Stolf and M. Duarte 250

Electromyography of selected lower-limb muscles fatigued by exercise at the intensity of soccer match-play
N. Rahnama, A. Lees and T. Reilly 257

Muscle activation imbalance and low-back injury in varsity athletes
N.P. Reeves, J. Cholewicki and S.P. Silfies 264

Muscular co-contraction during walking and landing from a jump: Comparison between genders and influence of activity level
S.T. da Fonseca, D.V. Vaz, C.F. de Aquino and R.S. Brício 273

Surface electromyography and peak torque of repetitive maximum isokinetic plantar flexions in relation to aspects of muscle morphology
B. Larsson, F. Kadi, B. Lindvall and B. Gerdle 281

Intramuscular pressure and surface EMG in voluntary ankle dorsal flexion: Influence of elastic compressive stockings
B. Maton, G. Thiney, A. Ouchène, P. Flaud and P. Barthelemy 291

Coupling between muscle activities and muscle torques during horizontal-planar arm movements with direction reversal
G.L. Almeida, S.M.S.F. Freitas and N.F. Marconi 303

Erratum to "Pathophysiology of upper extremity muscle disorders" [Journal of Electromyography and Kinesiology 16 (2006) 1–16]
B. Visser and J.H. van Dieën 312

NUMBER 4

Electromyographic analysis of joint-dependent global synkinesis in the upper limb of healthy adults: Laterality of intensity and symmetry of spatial representation
I.-S. Hwang, C.-H. Wang, Y.-C. Chen, C.-Y. Cho and K.-T. Yeung 313

Comparison of a piezoelectric contact sensor and an accelerometer for examining mechanomyographic amplitude and mean power frequency versus torque relationships during isokinetic and isometric muscle actions of the biceps brachii
T.W. Beck, T.J. Housh, G.O. Johnson, J.P. Weir, J.T. Cramer, J.W. Coburn and M.H. Malek 324

Modifications of anticipatory postural adjustments in a rock climbing task: The effect of supporting wall inclination
F. Noé 336

Active leg stiffness and energy stored in the muscles during maximal counter movement jump in the aged
Y. Liu, C.-H. Peng, S.-H. Wei, J.-C. Chi, F.-R. Tsai and J.-Y. Chen 342

In vivo assessment of elbow flexor work and activation during stretch-shortening cycle tasks
D.L. Benoit and J.J. Dowling 352

Neuromuscular alterations during walking in persons with moderate knee osteoarthritis
C.L. Hubley-Kozey, K.J. Deluzio, S.C. Landry, J.S. McNutt and W.D. Stanish 365

Does level of load affect relative activation levels of vastus medialis oblique and vastus laterialis?
L. Herrington and S. Pearson 379

Characterization of the mechanical and neural components of spastic hypertonia with modified H reflex
C.-Y. Huang, C.-H. Wang and I.-S. Hwang 384

Classification of large array surface myoelectric potentials from subjects with and without low back pain
S.I. Reger, A. Shah, T.C. Adams, J. Endredi, V. Ranganathan, G.H. Yue, V. Sahgal and M.T. Finneran 392

NUMBER 5

Spectral EMG changes in vastus medialis muscle following short range of motion isokinetic training
Y. Barak, M. Ayalon and Z. Dvir 403

In vivo motion transmission in the inactive gastrocnemius medialis muscle–tendon unit during ankle and knee joint rotation
G. De Monte, A. Arampatzis, C. Stogiannari and K. Karamanidis 413

Contribution of the tendinous tissue to force enhancement during stretch–shortening cycle exercise depends on the prestretch and concentric phase intensities
M. Ishikawa, P.V. Komi, T. Finni and S. Kuitunen 423

Modulation of pre-programmed muscle activation and stretch reflex to changes of contact surface and visual input during movement to absorb impact
K. Kamibayashi and M. Muro 432

Effects of wrist position and contraction on wrist flexors H-reflex, and its functional implications
F.-F. Chen, S.-F. Lo, N.-H. Meng, C.-L. Lin and L.-W. Chou 440

Postural muscle activity patterns during standing at rest and on an oscillating floor
K. Fujiwara, H. Toyama, T. Kiyota and K. Maeda 448

Altered patterns of muscle activation during performance of four functional tasks in patients with shoulder disorders: Interpretation from voluntary response index
J.-j. Lin, H.K. Lim, D.A. Soto-quijano, W.P. Hanten, S.L. Olson, T.S. Roddey and A.M. Sherwood 458

Firing properties of motor units during fatigue in subjects after stroke
X.L. Hu, K.Y. Tong and L.K. Hung 469

Motor cortex excitability during unilateral muscle activity
M.I. Christova, N.G. Pondev, L.G. Christova, W. Wolf, R. Dengler and A.R. Kossev 477

Low-level exertions of the neck musculature: A study of research methods
S.M.B. Joines, C.M. Sommerich, G.A. Mirka, J.R. Wilson and S.D. Moon 485

Reproducibility of surface EMG variables in isometric sub-maximal contractions of jaw elevator muscles
T. Castroflorio, K. Icardi, B. Becchino, E. Merlo, C. Debernardi, P. Bracco and D. Farina 498

Scaling and non-scaling of muscle activity, kinematics, and dynamics in sit-ups with different degrees of difficulty
P.J. Cordo, P.W. Hodges, T.C. Smith, S. Brumagne and V.S. Gurfinkel 506

Examination of extrinsic foot muscles during running using mfMRI and EMG
K.M. O'Connor, T.B. Price and J. Hamill 522

Electromyographic instantaneous amplitude and instantaneous mean power frequency patterns across a range of motion during a concentric isokinetic muscle action of the biceps brachii
T.W. Beck, T.J. Housh, G.O. Johnson, J.T. Cramer, J.P. Weir, J.W. Coburn and M.H. Malek 531

NUMBER 6

SPECIAL SECTION (pp. 541–610)
2006 ISEK CONGRESS

Basmajian Lecture

Myoelectric signal processing for control of powered limb prostheses
P. Parker, K. Englehart and B. Hudgins 541

Keynote Lectures

Sensory – Motor control of ligaments and associated neuromuscular disorders
M. Solomonow 549

Electromyography of pelvic floor muscles
P. Enck and D.B. Vodušek 568

Neuromuscular responses to exercise investigated through surface EMG
F. Felici 578

Clinical applications of high-density surface EMG: A systematic review
G. Drost, D.F. Stegeman, B.G.M. van Engelen and M.J. Zwarts 586

Control of head stability during gait initiation in young and older women
L. Laudani, A. Casabona, V. Perciavalle and A. Macaluso 603

Ordinary papers

Reflexes in prior polio and their relation to weakness and anterior horn cell loss
A. Sandberg and E. Stålberg 611

Further evaluation of an EMG technique for assessment of the deep cervical flexor muscles
D. Falla, G. Jull, S. O'Leary and P. Dall'Alba 621

Dynamics of indirect symptoms of skeletal muscle damage after stretch-shortening exercise
A. Skurvydas, S. Sipaviciene, G. Krutulyte, A. Gailiuniene, A. Stasiulis, G. Mamkus and A. Stanislovaitis 629

Effect of lumbar extensor fatigue on paraspinal muscle reflexes
C.M. Herrmann, M.L. Madigan, B.S. Davidson and K.P. Granata 637

Gastrocnemius and soleus muscle length, velocity, and EMG responses to changes in pedalling cadence
D.J. Sanderson, P.E. Martin, G. Honeyman and J. Keefer 642

Adaptation of gait initiation in children with unilateral idiopathic clubfoot following conservative treatment
Ph. Wicart, J. Richardson and B. Maton 650

Agonist and antagonist muscle activation during maximal and submaximal isokinetic fatigue tests of the knee extensors
A. Hassani, D. Patikas, E. Bassa, K. Hatzikotoulas, E. Kellis and C. Kotzamanidis 661

Surface electromyography as a tool to assess the responses of car passengers to lateral accelerations: \Part I. Extraction of relevant muscular activities from noisy recordings
G. Farah, D.J. Hewson and J. Duchêne 669

Surface electromyography as a tool to assess the responses of car passengers to lateral accelerations. Part II: Objective comparison of vehicles
G. Farah, C. Petit-Boulanger, D.J. Hewson and J. Duchêne 677
